877-729-2779
to schedule a
consultation!

Information to Provide

- Practice that child visited
- Child age
- PCP name, NPI, & email
- Patient insurance status
- General reason for consult
- If known, whether a behavioral health screening was done in the prior 12 months

Celebrating Mental Health Month!

May has been observed as National Mental Health Month since 1979. This initiative aims to reduce stigma, increase available support, provide education, and advocate for policies to improve the lives of those living with mental health conditions and their families. In the US, 1 in 5 youth struggle with a mental health issue. By supporting pediatric primary care providers (PCPs), YAP-P works to address this important issue. PCPs can access YAP-P resources at www.yap-p.org and other helpful resources at www.acf.hhs.gov/behavioral-health

Featured Training

SAFESIDE SUICIDE PREVENTION

The SafeSide Framework is designed to address suicide concerns in primary care settings, considering time and resource limitations. Led by primary care psychologist Dr. Tony Pisani and suicide attempt survivor Kristina Mossgraber, the training is approximately 3-4 hours. The training incorporates video-based instruction and skill demonstrations by actual primary care providers. Please click [here](#) to complete the interest form.

YAP-P in the Community

Three members of the YAP-P team attended the Southeastern School Behavioral Health Conference in April. The team led a session on strategies for enhancing collaboration within multidisciplinary teams and school based health centers. This conference gave YAP-P the opportunity to connect with other organizations and grow our understanding of what is

happening across South Carolina. Additionally, YAP-P gained valuable feedback and insight about what YAP-P services audience members felt were helpful and how we could further support children's mental health in the future!

Consulting with YAP-P is as Easy as 1-2-3

Step 1

Connect with YAP-P at
1-877-729-2779

Step 2

Schedule consult with a
YAP-P Care Navigator

Step 3

Consult with YAP-P Child &
Adolescent Psychiatrist
