

More for their mental health.

FREE MENTAL HEALTH CONSULTS & CARE NAVIGATION FOR SC PCPS

YAP-P (YOUTH ACCESS TO PSYCHIATRY PROGRAM) is a free program helping primary and pediatric care providers tend to the mental and behavioral health of their young patients. By providing direct access to critical psychiatric consults, clinical trainings, and resource and referral services, we're increasing access to timely, effective care.

WE OFFER:

- » Psychiatric consults with child and adolescent psychiatrists
- » Community and behavioral health resources and referrals
- » Clinical trainings for CME and MOC credits
- » Patient referrals to direct services
- » Educational resources for providers and families
- » Practice registration for easy access to consult line and resources

With a simple call to our consult line, our psychiatrists can help providers with diagnostic clarification, medication management guidance, screening and treatment options and more, all regardless of patient insurance. And our care coordinators can make connections to community resources to get patients the additional support they need.
